

K-Love radio station MUST remain on the FM translator. This radio station provides a service to my family and self that can not be replaced. I do not have to worry about any offensive language or musical lyrics. There are no other radio stations that provide this service in our community. Often during "carpool" this radio station is able to speak to the kids and get them talking about moral issues that are brought up on the show. K-Love provides a positive contribution to our everyday life!!!
